6,000 Killed When German Munition Plant Blows Up

(International News Service)
With the British Army in France, Sept. 25.—A graphic description of the blowing up of a German powder factory at Plauen, in which more than 6,000 employers were either killed or injured, is contained in a letter found on a prisoner captured by the British. The letter follows: "Our Sunday excursion to Plauen was a

complete success. We visited the scene of the catastrophe where three weeks ago an explosion took place in a powder factory where 6,800 men and women were employed. Nearly all of the workers are said to have been victims of the war, and of the total number only 12 women are said to have escaped unhurt. The truth, of course, we can never get at."

Saturday Is "Volunteer Day" In 4th Liberty Loan Drive

Atlanta, Ga., Sept. 25.—Hundreds of cities, counties and towns in the Sixth Federal Reserve District have adopted the plan of making next Saturday, the opening day of the Liberty loan, "Volunteer Day," when every citizen who has made up his mind to invest in Liberty Bonds will go to his bank or some member of the committees and make his subscription voluntarily, without solicitation.

"Why not?" say the committee workers. "John Smith is as good a man as I am, and just as loyal a citizen. Why should John Smith wait for me or some other man to hunt him up and beg him to do his duty by his country? Let John and all the rest of the patriotic citizens come up and subscribe without being asked, and then we can devote all our time

to rounding up the fellows who have to be shown where their duty lies." In those communities where the "volunteer day" idea takes hold, it is believed the greater part of the quota in the Fourth Liberty loan will be subscribed on the first day.

Manufacturers and other business men have been evincing great interest in the industrial honor pennants, which will be awarded all firms whose business is represented by a subscription from 100 per cent. of the officers and employees. They say they will see to it that every man on the payroll takes at least one bond, and are making arrangements to finance the payments. It is expected that the red-bordered pennant with its four blue stars and the insignia, "100 per cent," will fly from many a plant within a few days after the campaign opens next Saturday.

Merritte Jones, Former Operator At Star, Is Killed In Action

Merritte Jones, former operator at the Star Theatre in Decatur and well and popularly known in the Twin Cities, has been killed in action in the fighting in France, according to information received by his wife, formerly Miss Dicie Rogers. Notification of the death of the soldier

was sent to his parents at Nashville first, owing to the fact that he had married since entering the service and had previously given his father as his next of kin. Mr. Jones came to Decatur from Mt. Pleasant, Tenn., some years ago.

Six Birdman Drop Into Bay; 3 Dead

(International News Service)
Pensacola, Sept. 25.—While making a practice flight here late yesterday, six naval station aviators fell into the bay, where three were drowned and three were saved and brought ashore here. The three rescued were seriously if not fatally injured. All were from Pennsylvania and New Jersey.

Capt. Frank Skeggs Goes Over Top

"Over top. Safe. Well." This is the laconic cablegram received yesterday by Judge Wm. E. Skeggs from his son, Capt. Frank Skeggs, now in the thick of the fighting in France. Capt. Skeggs is with Company E, Eleventh Infantry, regular army, and has been in Europe but a few weeks.

ONE OF THE HOSPITALS HUN AIRMEN ATTACK

This is one of the Red Cross evacuation hospitals behind the lines in France which the Germans' aviators have been deliberately bombing. Only a few days ago German aviators dropped bombs on one of these hospitals at Jouy, killing two enlisted men and wounding nine others.

NOW INTIMATED THAT PRICE OF COTTON WILL NOT BE FIXED

(International News Service)
Washington, Sept. 25.—By the appointment yesterday of a commission to find the way to utilize the low grades of cotton not now on the market but stored away for some future use, and by the government control of the distribution of all raw cotton, the necessity for actual price fixing is eliminated, according to the opinion of certain officials of the board today. Although no official statement was issued, it was intimated that the

two committees whose appointment was announced yesterday will so handle the movement of raw stock that the automatic fixing of prices by actual conditions will be the result. Charles J. Brand is the chairman of the newly appointed board to control the distribution of raw cotton. He stated that the committee believes it can fix upon a system of distribution without disrupting the present methods.

FALKVILLE FORMS DEFENSE COUNSEL COMMUNITY SING

ORGANIZATION WAS AFFECTED AT MEETING HELD THERE LAST NIGHT.

A community Council of Defense and a community "sing" were organized at Falkville last night by E. C. Payne, chairman of the county council of defense and Miss Florence Bassett, chairman of county "sings," assisted by quite a number of Twin City residents who motored through to the progressive city.

John L. Barber was elected president of the Falkville Defense Council and T. F. Witt, secretary; Andrew Jones was chosen director of the Falkville "sing" with Miss Ethel Clark as accompanist.

Among the speakers at the meeting were Mayor Payne and Miss Bassett, who explained the purposes of the organizations of which they were the heads; A. G. Patterson, H. L. Spencer and T. A. Bowles. Mr. Bowles, chairman of the Albany Liberty loan zone, composed of the counties of Morgan, Lawrence and Limestone, explained the forthcoming Fourth Liberty loan drive and appealed to Falkville to do its "bit."

"Driving the Stake" was the theme discussed by Mr. Spencer, and he used a homely illustration to point a moral. "You have all seen a circus tent being put up," he said, "Six men gather around the tent stake and with successive blows send it home. You never see the stake stop, as it settles deeper and deeper, until the last blow is struck. This is concerted effort, the kind of co-operation needed to win the war. We must all swing the hammers, and swing them hard."

W. W. Rahman, J. A. Buttrey and Miss Alice Hutton assisted in the musical program, and a delightful evening was spent. Falkville residents were very enthusiastic in their support of the two movements.

Car Load Of Jerseys To Sell Tomorrow

NO BIDDING, EACH COW TO CARRY PRICE TICKET.

The car load of Jersey cows bought in Tennessee last week by J. W. Clopton and J. F. Quinley will arrive in Decatur to-night and will be displayed and sold in the vacant lot next the Creamery, Bank street to-morrow morning. The cows will be on display all morning and the sale will start at 11 o'clock. There is to be no bidding, but each cow will bear a number and her price may be ascertained by request from those in charge, before the sale begins. With everything in readiness, Mr. Clopton hopes to complete the sale of seventeen or eighteen blooded cattle inside of thirty minutes, thus establishing a record.

All who care to visit the yard and inspect the stock will be welcome to do so whether they care to purchase or not.

A photograph will be taken of the herd with the creamery as a background for publication in northern dairy journals.

HUN CONSCIENCE WOULD SAFEGUARD SMALLER NATIONS

—VON HERTLING.

(International News Service)
London, Sept. 25.—"The Wildest war fury is raging in the United States and the people are intoxicated with the belief that America must bring the blessing of modern liberal culture to the enslaved people of the central powers," said Chancellor Von Hertling in his speech before the on Tuesday. "At the same time he on Tuesday." At the same time the American people rejoice in the many millions which the construction of armament caused to flow into the pockets of their business men. The situation is serious, but there is no ground for depression. Our iron will on the western front will not be broken. The U-boat warfare is slowly but surely fulfilling its task, and above all menacing and restricting the sending of reinforcements from the U. S."

Note: The chancellor's talk shows a change of attitude toward the part the U. S. is playing in the war and shows how the German government is misleading the people on the success of the submarine warfare.

(International News Service)
London, Sept. 25.—"The hour will come when our enemies will see reason and will be ready to end the war before half the world is destroyed," was the slender ray of hope for peace thrown out by the German chancellor yesterday in his address before the main committee of the Reichstag, according to late dispatches.

Von Hertling also expressed the hope that a league of nations would not be merely a dream. "The proposed league of nations," he said, should enforce disarmament, arbitration, the freedom of the seas and protection for all the smaller nations. As to the rights of the smaller nations, Germany is in position to include provisions for their protection because her conscience is clear."

Wilson To Speak For Liberty Loan

(International News Service)
Washington, Sept. 25.—President Wilson will speak at a Liberty Loan meeting in the Metropolitan opera house Friday evening, Secretary McAdoo announced today.

WOMEN ARMY TO HELP BOOST LOAN

MRS. W. E. TODD, LEADER, EXPLAINS NATURE OF CAMPAIGN

A meeting of the Ladies' Allied Army was held yesterday afternoon at the Board of Commerce rooms, at which the plans for the Liberty loan campaign, which will be put on in co-operation with the men's army, were discussed and instructions given to the captains and lieutenants by Mrs. W. E. Todd, who has charge of the ladies' work.

The Allied Army plan was first put into use at Birmingham and has been very successful there in all war campaigns. It has been adopted for use here in a simplified form.

In order that the army plan may be thoroughly understood by the army members, as well as the public generally, Mrs. Todd has asked that the following explanation be given: The highest officer is a major, and under him is a captain in each ward. Under each captain is a lieutenant on each street, or group of streets where they are short. Each lieutenant has a sufficient number of privates to work his street quickly and thoroughly. It is expected that all subscriptions will be made through the lieutenant or private on the street where the subscriber lives. This arrangement will give every solicitor an equal chance, as it would not be fair for anyone to get the benefit of all the subscriptions on Second Avenue, or any other part of town where there are a group of merchants or workmen men. It is understood that the solicitors may call on the people within their territory at their homes or at their places of business, as it most convenient. It is also expected that the lieutenants will choose privates to work on the streets on which they live. Each lieutenant and his privates are expected to work the streets crossing their territory in both directions as far as the alley, or half way to the next street. This will be necessary in order that no one be missed on cross streets.

The gentlemen gallantly allowed the ladies to have first choice of names for their army, and they promptly determined to call it the "American Army." This army will take part in the parade to be held Saturday evening.

VICTORY IS GROWING IN EXTENT

British And French Draw Near To St. Quentin and Cambrai

(International News Service)
London, Sept. 25.—The Bulgarians on the Balkan front have extended their retreat from the Vardar river to the Stuma, a distance of 30 miles, said a dispatch this afternoon.

(International News Service)
London, Sept. 25.—Gen. Allenby's British army in Palestine has captured 38,000 Turks in the new drive north of Jerusalem and more are uncounted, said a dispatch this afternoon.

(International News Service)
Washington, Sept. 25.—A successful raiding party in the Woevre brought prisoners, Gen. Pershing reported in his communique today.

(International News Service)
London, Sept. 25.—The advance of the Serbians along the left bank of the Vardar river and north of Prilep continues without interruption and the stores of captured booty are growing, it was officially announced today.

(International News Service)
New progress has been made by both the British and French in front of St. Quentin and the steel circle that is thrown around the German stronghold has been drawn tighter. In the Balkans the allies continue their advance on the center and have captured Prilep, along with an immense store of war booty. Bulgarian rear guards are being defeated wherever they attempt to stand.

Following the capture of Doiran, the British have continued their advance northward along the main line of the Salonika railroad. The annihilation of two Turkish armies, the seventh and eighth, has opened up the way for a fresh advance of the allies in Palestine.

For the first time since the war began, fighting is now in progress upon Bulgarian soil. Allied cavalry has invaded Bulgaria, following the capture of Doiran, and at last reports was advancing upon the town of Strumnitza.

On the whole Balkan battle front the Bulgarians are now in retreat. With the invasion of Bulgaria by allied cavalry the first definite move is made toward cutting the Orient railway, the only direct line of communication linking up Turkey with the central empires. The allied forces are moving upon Strumnitza, which is only 90 miles from this railroad. It is unofficially estimated this afternoon that the allied advance now totals more than 60 miles and still continues. Following the capture of Prilep by the French, the allied forces are moving on Veles. On the western front the British have made a new gain in their flanking move against St. Quentin and Cambrai. There is artillery shelling on the Metz front. Chief interest today centers on the military situation in the Balkans, where the magnitude of the allied victory over the Bulgarians grows hourly. The German alliance has already begun to totter from the staggering blows which are being struck in the Balkans and in Turkey.

(International News Service)
With the American army on the Lorraine front, Sept. 25.—Patrols were active during the night on the front opposite Metz and a great artillery duel is in progress.

A German aeroplane was brought down today near Xammes by high-angle guns and the pilot and observer were both captured uninjured. The guns of Fort Haeseler on the Moselle river, one of the outer defences of Metz, kept up a harassing fire against the areas in the rear of the American line. The long-range American guns replied.

(International News Service)
Paris, Sept. 25.—German troops attacked the French in the region of Moisy farm during the night, but were completely repulsed, the war office announced today. There was heavy artillery firing in the sector of St. Quentin, also on the Vesle river, where the Americans are holding the line.

(International News Service)
London, Sept. 25.—50,000 prisoners have been captured by the allies in Palestine and the Balkans since the new drive was started last week, according to unofficial estimates. The British and French in the Holy Land have wiped out two Turkish armies.

(International News Service)
Paris, Sept. 25.—(1:05 p. m.)—The capture of the Serbian city of Prilep was officially announced today.

OPEN WIDE THE SITUATION: GIVE A WORLD VIEW, AND THE MONEY WILL COME.

To open wide the situation now confronting this country and the world is all that the Fourth Liberty loan workers and speakers need to do in order to assure the raising of the huge loan to be offered by the treasury department in the campaign beginning Saturday and continuing for three weeks.

In the first place we, as a nation, must be made to realize that in the present war history is not simply repeating itself; that we are not facing such a situation as was faced by those of the past who have gone through other wars. The first words of the German national hymn are the key words which unlock the mystery, if it is still a mystery, as to why the world has lain in such deadly peril for forty years and especially for the last four years. The words are:

"Where is the German Fatherland?"

"As far as the tongue (German) is spoken."

"And German prayer is said."

Though pro-Germans deny until black in the face that the Fatherland party had no designs on the world in 1914 and for forty years prior, no fair-minded, intelligent man will believe them, and they probably don't believe what they claim!

"Deutschland über alles" has been more than a poetic expression.

Dewey got a hint of German lust for power at Manila Bay, in 1898 and but for an English admiral might have had to fight the Germans then and there. The British lion had cause to growl and roar over the Moroccan affair. The false society of Germans in this country, recently outlawed by Congress, who called themselves the German-American Alliance, was part of the plan of the German blackened criminals to seize the world. The visit of Prince Henry of Prussia to his subjects in America, several years ago was another part of the plan for German domination of this world. The revelations of A. Mitchell Palmer, alien property custodian, only a few days ago go far toward proving very recent plans of Germans in this country. Hear Mr. Palmer's recent official statement:

"Let me say to you, as an illustration of the lengths to which these interests will go, that the facts will soon appear which will conclusively show that twelve or fifteen German brewers of America, in association with the United States Brewers' Association, furnished the money, amounting to several hundred thousand dollars, to buy a great newspaper in one of the chief cities of the nation; and its publisher, without disclosing whose money had bought that organ of public opinion, in the very capital of the nation, in the shadow of the capitol itself, has been fighting the battle of the liquor traffic. That money was placed there under methods and by contrivances cleverly designed to keep secret forever who it was that put the money into that great newspaper and the purposes for which it was there. Now, I say to you that when this traffic, doomed though it is, undertakes and seeks by these secret methods to control party nomination, party machinery, whole political parties, and thereby control the government of State and Nation, it is time that

the people knew the truth, and it is time that we as Americans, stand for the truth, no matter who gets hurt in the process."

"And I say another thing which is appropriate to be said at this time in this great hour of the country's emergency, that the organized liquor traffic of the country is a vicious interest because it has been unpatriotic; because it has been pro-German in its sympathies and its conduct."

"Why, you and I know perfectly well that it is around these great brewery organizations owned by rich men, almost all of them of German birth and sympathy, at least before we entered the war, that has grown the societies, all the organizations of this country intended to keep young German immigrants from becoming real American citizens. It is around the saengerfests and the saengerlands and organizations of that kind, generally financed by the rich brewers, that the young Germans who come to America are taught to remember first the fatherland and second America."

Though Mr. Palmer lays stress on the liquor interests, what he says in the last analysis is a blow at an indictment of pro-Germans in this country. He calls it all a "German" whiskey alliance. And incidentally but scaring editor, Arthur Brisbane, will never fly so high again since he was a part of the German plan to buy and prostitute a great newspaper.

The Kaiser's visits to the corrupt Sultan of Turkey, years ago, and his crowning, loathsome presence at the Holy shrines at Jerusalem all fit in to his plan to rule the world. James W. Gerard's book reveals the same plan as do the articles by our late Ambassador to Turkey which appeared serially in World's Ways. He who runs, can read the true story of German lust for power and German premeditated murder!

Let the people be thoroughly saturated, so to speak, with the facts of the German peril which has awaited the world and still awaits it. They then will pile up a war fund, which will make the budgets of the old world look like the proverbial thirty cents. Educate, co-operate, work and slave to see that the Fourth Liberty loan is a towering success!

30,000 WOMEN TO PUSH FOURTH LIBERTY LOAN
Atlanta, Ga., Sept. 25.—Thirty thousand Southern women will be actively at work next Saturday in the canvass for the Fourth Liberty loan, it is estimated by Mrs. Samuel Lumpkin, director of woman's work for the six states comprising the Sixth Federal Reserve District. At the instance of the men's organization, every county chairman of woman's work will be a member of the men's county executive committee, and it is believed the fourth loan campaign will be marked by even better co-operation between the men and women than in former drives. The women will make the usual house-to-house canvass everywhere. Woman's work in the Liberty loan will be featured by exhibits in many fair fairs, both state and county. Elaborately decorated booths have been planned, and it is expected many subscriptions will be taken from visitors to the fairs.

Women will play a prominent part in the many parades and pageants to be staged in connection with the loan campaign. Besides the canvassing, thousands of young women are working in headquarters offices as volunteers.

SPIELBERGER UNDERGOES PAINFUL OPERATION AT BENEVOLENT HOSPITAL
Henry Spielberger, the popular Second Avenue haberdasher, is convalescent from a painful and serious operation Sunday for tonsillitis. The operation was performed at Benevolent Hospital, and Mr. Spielberger is high in his praise of the institution. Possessing an extraordinary resistance for anesthetics, Mr. Spielberger was put under the influence of chloroform only with difficulty and during the period his face was accidentally blistered. He was at his post of business today.

Wetproof Steel Lined Shot Shells

MAKE our showery hunting days this Fall the good days for ducks they really ought to be, with the right shotshells—Remington UMC Smokeless "Arrow" or "Nitro Club" Wetproof Steel Lined "Speed Shells." No matter how much water may get to them, they will actually stay just as dry and serviceable as your Remington UMC Pump Gun or Autoloading Shotgun.

Those finest of shoal-water fowl, the big mallards—which you can seldom get with in gunshot when it is calm and fair—are then not so quick to take wing. But your shells must be right. Hunting has no worse luck than a water-soaked shell that has swelled and sticks in the gun at a critical moment—to say nothing of a "miss" caused by wilting of the turned-over end of the shell.

Remington UMC Smokeless "Arrow" and "Nitro Club" Wetproof Steel Lined "Speed Shells" are made waterproof by a wonderful process, invented for them and used exclusively in their manufacture.

It took three years to perfect this process. The result is a shell that will work and shoot right throughout an

all-day downpour—keeps hard and smooth with no softening of the turned-over end or bulging of the top wad in the wettest coat pocket.

You buy the same favorite brand, at the regular price, and get the Wetproof improvement without cost. The first completely waterproof shotshell, at the same time having the uniform superiority of speed, pattern and penetration for which Remington UMC "Arrow" and "Nitro Club" Steel Lined "Speed Shells" are famous.

In black powder, buy the old reliable "New Club," now Wetproof sealed at turnover and top wad.

Prilep Is Captured By French Troops

(Continued from Page One)

(International News Service)
London, Sept. 25.—The British line has been advanced at Inchy, in front of Cambrai, the war office reported today. A German attack at Souchy, northwest of Cambrai, was repulsed. Northwest of St. Quentin, the British took 1,000 prisoners and a large number of machine guns yesterday.

(International News Service)
London, Sept. 25.—The Bulgarian army on the Balkan battle front has been cut up into several groups by the overwhelming advance of the allies. Servian cavalry is pushing up the Vardar river to Bragalnitz to cut the main road between Gradsko and Ishtub. The Serbs have now advanced sixty miles, taking 170 guns. Additional prisoners are pouring in.

Glass And Barret To Visit Europe

New York, Sep. 25.—Twelve editors, representing as many newspapers and press associations, have accepted an invitation of the British and French governments to visit the war zone for a firsthand study of conditions, it was announced today. The party will spend two months in England, Scotland and Ireland before visiting the western front in France.

The editors who will make up this party are: Frank P. Glass, Birmingham News; Edward W. Barrett, Birmingham Age-Herald; A. N. McKay, Salt Lake Tribune; H. V. Jones, Minneapolis Journal; Edgar B. Piper, Portland Oregonian; E. Lansing Ray, St. Louis Globe-Democrat; Lafayette

TERRIBLY SWOLLEN

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theodor's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theodor's Black-Draught."

Theodor's Black-Draught will help you to keep fit, ready for the day's work.

THERE'S NONE SO GOOD

Releasing the Resources of the Nation

Hundreds of Federals are in service at the very outposts of industry.

It is here, perhaps, that they perform their most spectacular work, defying every hardship—surmounting every obstacle, that primitive conditions can impose.

At the mines—in the lumber camps—on the broad prairie wheat fields you will find them, helping to release the riches of the soil.

In thus facilitating the development of the country—the prosperity and happiness of its people, efficient haulage has given Federals a well earned place as one of the nation's institutions.

AMUSEMENTS

"REVELATION" NAZIMOVA'S
GREAT PHOTO-PLAY

Masonic Thursday and Friday. The latest photo-play in which Mme. Nazimova is featured has established several records. One is revealed in the comment of a well-known dramatic reviewer who, after witnessing its premier, declared: "I have been going to pictures for a long time looking for what I consider a real photo-play. At last I have found one."

Then there always has been the opinion of experts to combat to the effect that the most successful photo-plays are not made from novels or romances, but are written originally for the screen. Here "Revelation" makes another record for itself, for was adapted from the romance, "A Rosebush of a Thousand Years," written by Mrs. Mabel Wagnall, a charming story of the awakening of the soul of a beautiful Parisienne.

And then comes the triumph of herself, who finds in this new vehicle in opportunity for the display of all her unquestioned talents, for it is a "moving" picture in every sense of the word. The New York Journal of Commerce says of the play and its presentation:

It is a beautiful story, beautifully told and wonderfully well acted. Practically all the interest centers in the one character, Joline, played by Mme. Nazimova. There never has been, never can be, any question as to the talent of this actress, and in the role of Joline, the vivid, picturesque little model of the Latin Quarter, who, through a miracle, finds her soul, Mme. Nazimova is suited as she seldom has been before.

The picture, adapted from Mabel Wagnall's story, "A Rosebush of a Thousand Years," is based on an old legend. A monk planted a rosebush in the monastery garden, but it never bloomed, and the monks considered this a sign of divine displeasure. One day the monk prayed beside the bush, and, as he looked up, he saw the Holy Mother standing among the branches and saw that the bush was covered with roses.

Joline, when the picture starts, is in a Paris cabaret, dressed as a bacchante. She is impressed by the sketches made of her by Paul Granville, an American artist, calls the attention of patrons of art to him, and offers to pose for him without pay. He paints a picture of her as a bacchante, which is the sensation of the Salon, and her former lover, an Apache, cuts it to ribbons. Paul, however, still with Joline as model, paints other pictures, and with each his fame grows. At last he is commissioned to paint the "Madonna of the Rose-bush," and he goes to the monastery with Joline.

They trick the monks into allowing Joline to enter the garden by dressing her as a boy. Once inside, she puts on the robes of the Madonna, and poses beside the bush. Brother Augustine, one of the monks, sees her, and, believing her a vision, faints, while Paul and Joline hurry away. But the bush blooms and the entire village hails the vision as another miracle. Joline, conscience-stricken, goes to the prior and confesses her part in the trick. The prior shows her the blooming bush, places a rose from it in her hand, and her soul awakes. She leaves Paul, and wanders away alone.

Paul searches for her, but in vain. Then the war comes; the American troops go to France; Paul enlists; and Joline, as a Red Cross nurse, saves him in No Man's Land. She nurses him back to health and they are married.

The critic closes his review by the terse statement:

Altogether, "Revelation" is a truly great picture, one of the best ever screened.

4TH LIBERTY LOAN
TOTAL SIX BILLION

ATLANTA DISTRICT TO SUBSCRIBE \$192,000,000 AS ITS QUOTA.

Washington, Sept. 25.—The American people will be asked to subscribe in three weeks beginning next Saturday the greatest loan in all history.

The Treasury Department announced today that the amount of this, the Fourth Liberty loan, will be \$6,000,000,000. The bonds will bear 4½% interest and will mature in 20 years, with the Government reserving the right to pay them in fifteen years if it elects.

In making public these final details of the loan, the treasury gave out the quotas each federal reserve district is expected to subscribe and from which will be figured the share of each state, county, city and hamlet. Apportionments for states and smaller subdivisions will be worked out by district organizations and announced within a few days. By the time the campaign opens a month after next Friday midnight, every community

may know what goal it will have to reach to gain the coveted honor flag.

In assigning quotas, the treasury took into consideration unusual conditions either of prosperity or of business hardships, as well as the banking resources of each district.

New York with its big financial interests and corporation headquarters is asked to raise \$1,800,000,000, or 30 per cent. of the total. The Chicago district quota is placed at 14½ per cent. and Cleveland 10 per cent. Dallas, partly because of recent droughts in the southwest, is asked for only 2 1-10 per cent.

Following are the quotas and percentages of the total by federal reserve districts:

New York.....	30	\$1,800,000,000
Chicago.....	14½	870,000,000
Cleveland.....	10	600,000,000
Boston.....	8 1-3	500,000,000
Philadelphia.....	8 1-3	500,000,000

San Francisco.....	6 7-10	402,000,000
Richmond.....	4 2-3	280,000,000
St. Louis.....	4 1-3	260,000,000
Kansas City.....	4 1-3	260,000,000
Minneapolis.....	3½	210,000,000
Atlanta.....	3 1-5	192,000,000
Dallas.....	2 1-10	126,000,000

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire.

There is a harrassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the

blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle to-day at any drugstore, and you will see results from the right treatment.
